## *A little about me*

I'm Darren and I'm a fine art portrait and wedding photographer.  
Based out of Sunnyside Newfoundland, I've been shooting weddings  
professionally for over fifteen years now.

My goal is to create and capture genuine and authentic moments, that  
will be treasured for years to come.

## *What to expect*

---

### A Wedding Day You'll Truly Enjoy

Your wedding day should be as magical and stress-free as possible. My goal is to make sure you can relax, soak in every moment, and truly enjoy the celebration of your love. I'll be there not just as your photographer, but as your guide, helping the day flow smoothly while capturing all the joy, laughter, and unposed moments that make your story unique

I'll blend into the background to document the authentic emotions and little details, while also stepping in to provide support whenever you need it. From keeping things on track to offering a calming presence, I've got you covered.

While I'll work with a timeline to ensure everything runs smoothly, I also know that weddings rarely go exactly as planned—and that's okay! My job is to adapt, document, and make sure you can focus on what really matters: celebrating your love and starting this new chapter together.

# Wedding Collections

---

## Love Notes

---

RUN, don't walk. Book Hatt Photography for your wedding photos. He just posted some of our sneak peeks and I'm so happy. Not to mention spending the day with Darren Hatt was like having a friend/family member take care of the photos. I'm so happy with the previews and can't wait to see the rest.
